**STATUS INQUIRY**

Sir:

A Status Inquiry was filed on April 11, 2006. A communication was mailed on March 14, 2003 (copy enclosed) informing the undersigned that a third party applicant was seeking to provoke an interference by copying into an unidentified pending application claims which issued from the above identified patent application as U.S. Patent No. 6,246,933.

To date no further information has been received with regard to such interference. Inquiry is therefore made as to the status of the application into which the claims of the '933 patent were copied. Specifically, it is requested that the Office notify the undersigned whether or not such copied claims remain pending in a third party application.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
